

# Town of Douglas

April 21, 2025

Dear Douglas Electricity Customer,

The Town of Douglas is offering a program called Douglas Community Electricity Aggregation (Douglas CEA). The Program is a carefully designed alternative to your current electricity supply options that include those offered by Douglas and other third-party electricity suppliers. By implementing the Program, Douglas aims to provide electricity products that increase our community's renewable energy use and reduce carbon pollution.

You will be automatically enrolled in the Douglas Community Electricity Aggregation product, "Douglas Standard", unless you affirmatively opt out by mailing and postmarking the enclosed opt-out card by **May 24, 2025**.

## YOUR OPTIONS

Your participation in the Program is voluntary. You can leave the Program at any time without penalties or fees.

**1 Automatically enroll in Douglas Standard, which meets MA renewable energy requirements**  
If you take no action, you will be automatically enrolled in the default product, Douglas Standard, starting on your June 2025 meter read. The electricity supplier for the Douglas Community Electricity Aggregation Program is Constellation.

To choose a different product, call the program's electricity supplier, Constellation, at (833) 461-0813, or submit an online request at [MassCEA.com/Douglas](http://MassCEA.com/Douglas).

**The Douglas Community Electricity Aggregation Program cannot guarantee savings compared to National Grid Basic Service for the duration of the Program pricing as future Basic Service rates are unknown.**

Program prices could also increase as a result of a change in law that results in a direct material increase in costs during the term of the electric supply contract. Program prices include a commission fee of 0.1 ¢/kWh for the aggregation consultant. Program prices also include taxes which are billed as part of the power supply charge.

Douglas Community Electricity Aggregation prices apply to service beginning and ending on the days of the month that your meter is read. Rates indicated above are for Supply Services only.

Some products contain additional Renewable Energy Certificates (RECs) above that required by MA law. The additional RECs qualify for MA Class I designation from generation located within, or delivered to, New England.

The Renewable Portfolio Standard (RPS) is the minimum renewable energy required each year by the Commonwealth of Massachusetts. MA Class I renewables are from new sources located within, or delivered to, New England, and built after 1997. For details on all required sources, see [www.mass.gov/service-details/program-summaries](http://www.mass.gov/service-details/program-summaries).
